ANNOTATSIYA

Interpolimer komplekslarining fizik xususiyatlarini va ularning kompozitsion materiallari asosida o'rganish hozirgi davrning dolzarb vazifalaridan biridir. Ushbu ilmiy maqola ularning issiqlik o'tkazuvchanlik xususiyatlarini o'rganishga bag'ishlangan.

ABSTRACT

The study of the physical properties of interpolymer complexes and on the basis of their composite materials is one of the urgent tasks at the present time. This scientific article is devoted to the study of their thermal conductivity properties.

Keywords: Polymer, composite, modification, water
