## ANNOTATSIYA

Bilim va e’tiqod uyg‘unligi, xususan epistemologiya bevosita ilmiy izlanishlar jarayoni bilan bog‘liq muhim qirralarini chuqur o‘rganilishi yangi kashfiyotlar uchun sharoit yaratadi. Ushbu maqolada, bilim va e’tiqod uyg‘unligining epistemologik xususiyatlarining falsafiy metodologik tahlili bugungi kunda o‘ta dolzarb hisoblanadi.

**Kalit so’zlar:** Ilohiylik, empidokl, intuitiv bilish, g‘oyibona bilish, g‘oyalar dunyosi, tafakkur, epistemologiya, bilim, gnoseologiya, irratsional ishonch, ixlos.

# DIFFERENCE OF THE CONCEPTS OF "KNOWLEDGE" AND "FAITH" IN THE VIEWS OF GREAT PHILOSOPHERS

## ABSTRACT

The combination of knowledge and belief, in particular the in-depth study of important aspects of epistemology directly related to the process of scientific research, creates the conditions for new discoveries. In this paper, a philosophical methodological analysis of the epistemological features of the combination of knowledge and belief is very relevant today.

**Keywords:** Divinity, empidocles, intuitive knowledge, occult knowledge, world of ideas, thinking, epistemology, knowledge, epistemology, irrational belief, sincerity.
