ANNOTATSIYA

Hozirgi globallashuv deb nomlanayotgan davrda inson ko'proq ijtimoiy tarmoqlarga vaqt sarflashi odat tusiga aylandi .Bu bir qaraganda odatiy holatdek tuyulsada aslida juda ham o'ylashga va fikr yuritishimiz kerak bo'lgan holat va muammodir. Ruhshunoslarning ma'lumotlariga qaraganda, yoshlarda buzg'unchi, destruktiv g'oyalarga qarshi mafkuraviy Immunitet to'la shakllanmagani uchun o'qigan yoki ko'rgan ma'lumotlariga tez ishonishadi. Bunday hollarda yoshlarning ma'naviyatiga, ruhiyatiga salbiy ta'sir ko'rsatishi ko'rinib turgan va isbot talab qilmaydigan haqiqatdir.

THE NEGATIVE EFFECTS AND CONSEQUENCES OF THE INTERNET ON THE YOUNG GENERATION

ABSTRACT

In the current era of so-called globalization, it has become a habit for people to spend more time on social media. This may seem like a normal situation, but in fact it is a situation and a problem that we need to think about a lot. According to psychologists, young people are quick to believe what they read or see because ideological immunity against destructive, destructive ideas is not fully formed. It is a fact that in such cases, the negative impact on the morale of young people is obvious and does not require proof.
