THE MAIN PECULIARITIES OF WEB TOOL 2 DURING TEACHING

Dilfuza Azimova
Uzbekistan State World Languages University

ABSTRACT

This article is devoted to the most indispensible features of the tool WEB 2. Moreover, it also discusses some obstacles that teachers may come across during teaching. According to the research, it is obvious that the main benefits of using Web 2.0 technologies are: interaction, communication and collaboration.

Keywords: hardship, interaction, communication, collaboration, flexibility, ease.
