ANNOTATSIYA

Ushbu maqolada taqqoslamalar xossalari va matematik tasdiqlarni isbotlashda toqqoslamalarning o'rni haqida ma'lumotlar keltirilgan.Taqqoslamar yordamida ber nechta misollarni isbotlash usullari keltirilgan.

Kalit so'zlar: tenglama, tengsizlik, bo'linish , taqqoslama, daraja ko'tarish.

THE PLACE OF COMPARISONS IN PROOF

ABSTRACT

This article provides information on the properties of comparisons and the role of comparisons in proving mathematical assertions. There are several ways to prove comparisons.

Keywords: equation, inequality, division, comparison, elevation.
