ANNOTATSIYA

Maqolada fazoviy ma'lumotlar infratuzilmasi (FMI)ning O'zbekistonda shakllanishi, qo'llanilayotgan texnologiyalar bo'yicha qisqacha to'xtalgan. FMI geservislaridan foydalanishda mobil va veb geografik axborot tizim (GAT)larning usutnligi. Xususan foydalanuvchilar ko'pligi va global qamrovi, krosplatformalik xususiyati, xizmatlar tannarxining arzon hamda soddaligi kabi afzalliklari keltirib o'tilgan.

Kalit so'zlar. Fazoviy ma'lumotlar infratuzilmasi, mobil va veb GAT, geoportal, geoservislar, geofazoviy ob'ektlar**.**

ABSTRACT

The article briefly describes the formation of space data infrastructure (FMI) in Uzbekistan, the technologies used. Advantages of mobile and web geographic information systems (GAT) in the use of FMI services. In particular, the advantages of large number of users and global coverage, cross-platform features, low cost and simplicity of services are mentioned.

Keywords. Spatial data infrastructure, mobile and web GAT, geoportal, geoservices, geospatial objects.
