THE PEDAGOGICAL SYSTEM IN HOMOGENEOUS AND HETEROGENEOUS CLASSROOMS.

Zulayho Gayratbek kizi Karimova
The bachelor student of Andijan State University

ABSTRACT

This station discusses the basic skills that teachers will need when conducting both types of classes. In addition, there will be presented the non-repetitive benefits of various classes and tasks for students to use. Some psychological problems of students that may arise during the organization of classes and possible ways to solve them will also be given.

Keywords: homogeneous and heterogeneous classes, special tests, pedogog, under-education, psychological methods, segregation of children, free atmosphere.
